Summary

Software Developer with experience building scalable web applications, enterprise platforms, and AI-enabled education products using React.js, Next.js, TypeScript, JavaScript, Spring Boot, REST APIs, SQL, and modern frontend technologies. Experienced in designing responsive user interfaces, integrating backend services, deploying production applications, and collaborating across the complete software development lifecycle. Passionate about building high-quality software and solving real-world engineering problems.

Education

Dr. B.R. Ambedkar National Institute of Technology, Jalandhar
B.Tech in Biotechnology

Dec. 2021 – May 2025
CGPA: 7.22/10

T.P. Bhatia College of Science, Kandivali
Maharashtra Board (Senior Secondary School)

May 2020 – May 2021
84.17%

Experience

Brain Train Consultancy Services LLP
Software Developer

Sept. 2024 – Present
Remote

- Worked as a Full Stack Software Developer on multiple enterprise-grade web applications, contributing to the complete software development lifecycle including requirement analysis, UI development, backend integration, testing, deployment, and production maintenance.
- Contributed to the development of **BrainzTalks**, an online education platform, by designing responsive frontend interfaces, integrating backend APIs, implementing course management modules, improving application accessibility, and enhancing the overall user experience across desktop and mobile devices.
- Played a key role in building **Srishtizia**, an AI-powered competency assessment and career development platform. Designed and implemented competency evaluation workflows, SIP (Student Impact & Participation) modules, report generation systems, analytics dashboards, authentication flows, and scalable frontend architecture integrated with Java Spring Boot backend services.
- Developed and consumed RESTful APIs using Java Spring Boot, implemented CRUD operations, handled API integration, validated user inputs, managed authentication workflows, and collaborated with backend teams to ensure secure and efficient communication between frontend and backend services.
- Worked extensively with React.js, Next.js, JavaScript, TypeScript, Java Spring Boot, Tailwind CSS, Git, GitHub, MySQL, and Postman while following component-based architecture, clean coding standards, and version control best practices.
- Optimized application performance through code refactoring, reusable component development, lazy loading, API optimization, and responsive UI implementation, resulting in improved maintainability and user experience.
- Managed application deployment using Vercel and GitHub-based CI/CD pipelines, performed production monitoring, resolved bugs, and collaborated with cross-functional teams to deliver scalable and reliable software solutions.

Projects

Scalable E-commerce Platform | *React.js, MySQL, REST APIs, JWT*

- Developed a scalable e-commerce platform with RESTful APIs and MySQL backend.
- Implemented JWT authentication for secure user management and order processing.
- Reduced query response time by 35% through optimized SQL joins and indexing.

BioEquip Hub | *React.js, Node.js, MongoDB, Google Maps API*

- Designed and developed a location-aware biotechnology equipment discovery platform connecting users with nearby research facilities.
- Integrated Google Maps API with intelligent filtering based on equipment availability, pricing, ratings, and location.
- Built REST APIs using Express.js and MongoDB with scalable database design and responsive React.js frontend.

Technical Skills

- **Languages:** Java, JavaScript, TypeScript, Python, C++, SQL
- **Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend:** Java Spring Boot, Node.js, Express.js, REST APIs , Django
- **Databases:** MySQL, MongoDB, Supabase
- **Cloud & Deployment:** Vercel, Netlify, Render, GitHub Actions
- **Tools:** Git, GitHub, Postman, VS Code
- **AI/ML:** Machine Learning, Natural Language Processing (NLP)
- **Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems

Certifications

Software Engineer Intern – HackerRank	[View Certificate]
Frontend Developer in React.js – HackerRank	[View Certificate]
Frontend Developer Intern – Micro1	[View Certificate]
Received Navbharat Times Scholarship after 10th grade
